Service Information

You can use Telsim services by purchasing a Telsim SIM card online or through retail outlets and activate the SIM card using Telsim My Account Portal at www.telsim.com.au/activate. You can apply the Reference Number provided during your order while you activate the SIM card online to get the plan applied automatically. If you have purchased the SIM without a plan added (from online or retail outlets), you will need to select a plan and pay for it. A 4G/4G+/5G compatible device is required, and the mobile coverage is dependent on external factors like location and surrounding landscapes. Speeds may vary due to factors such as location, distance from the base station, local conditions, concurrent users, hardware and software configuration and download/upload destination. For 5G coverage information, see www.telsim.com.au/coverage. Following your initial payment through Card or Reference Number, you will be charged on the preferred payment method added in the Telsim My Account at the end of each billing period. Telsim SIM-only mobile services are subject to mandatory auto-renewal. By activating a service, you authorise our payment processor, Braintree (a PayPal service), to debit your nominated payment method according to the agreed billing schedule. International Roaming is available as an optional add-on, for an additional cost.
